3rd INTERNATIONAL COURSE WORKSHOP & CONFERENCE ON PERITONEAL SURFACE MALIGNANCIES YEAR IN REVIEW: GYNECOLOGIC ONCOLOGY | COLORECTAL CANCER

19 - 21 April 2019, Mumbai

Dear Friends,

It is our pleasure to invite you to the 3rd ESSO-ESPSO, ISPSM & AGOI International Course, Workshop & Conference along with Year in Review in Gynecological and Colorectal malignancies, organized by the Indian Society of Peritoneal Surface Malignancies (ISPSM) in collaboration with the Association of Gynaecologic Oncologists of India (AGOI), from April, 19 - 21 at Tata Memorial Hospital, Mumbai.

The scientific program has been carefully designed to present and discuss the most recent evidence in peritoneal surface malignancies and to review important developments in fields of gynecological and colorectal cancers in last one year. The pre-conference workshop will have a series of lectures covering practical aspects of CRS & HIPEC followed by live surgical demonstration of CRS, HIPEC and PIPEC. The first twenty delegates will also get an opportunity to get hands-on in wet lab.

The conference will feature keynote lectures, didactic sessions, panel discussions and satellite symposia. Delegates will get a chance to meet and interact with renowned international and national faculty members. The conference will also provide an opportunity to present original work during oral and poster presentation sessions with exciting awards in both categories. The best oral and poster awardees will receive international HIPEC travel fellowships to an European Centre under the guidance of an international faculty.

This conference is intended for gynecological, surgical and medical oncologists, oncology nurses and technicians, perfusionists, pathologists and other healthcare professionals working in the field of gynecological and gastrointestinal cancers.

We look forward to your active participation & support in making this meeting successful.

Call for Abstracts

The following information is provided to guide you through the abstract submission process:

Submission Guidelines Overview

All abstracts for the ISPSM-AGOI conference must be submitted by email to abstracts.ispsmagoi@gmail.com

Registration is mandatory.

The topic of the abstracts should cover the following:

- Peritoneal surface malignancies
- Gynecological Malignancies
- Gastrointestinal Malignancies
- Pseudomyxoma peritonei (PMP)
- HIPEC
- PIPEC

Word limit - 250 words

All abstracts must be submitted by email no later than **12 April 2019**. Abstracts will be selected for either Oral or Poster presentation. Authors will receive a confirmation email on or before **15 April 2019**.

Presentation Types

Authors may submit 1 or more abstracts for consideration for presentation at the meeting. All abstracts will be reviewed by the selection committee. The selected abstracts will be shortlisted for either Oral or Poster presentation.

Oral presentation will be delivered during the scientific sessions. Date & time of the presentation will be intimated. Each presenter will be given 7 minutes for presentation, followed by 3 minutes for questions. Presenting author must be identified in the submitted abstracts.

3rd INTERNATIONAL COURSE WORKSHOP & CONFERENCE ON PERITONEAL SURFACE MALIGNANCIES YEAR IN REVIEW: GYNECOLOGIC ONCOLOGY | COLORECTAL CANCER

19 - 21 April 2019, Mumbai

Your Abstract should adhere to the following format:

- **Title:** Your title should be as concise and accurate as possible. Good titles may ask a question, describe a problem, reference a controversy, summarize an experience, or even state a result.
- **Aim :** State in 1-2 sentences the aim of your study. Describe the scientific context, i.e. why you did the study and include what the hypothesis of the study was. Novelty for its own sake without a clear justification is insufficient reason for a study.
- **Methods:** Briefly state the plan and/or methods used, i.e. how you did the study. For reports of clinical experience it is essential to describe the patient population and how they were identified and / or selected. For comparisons between two populations, it is particularly important to show how the two groups are comparable and / or different.
- **Results:** Clearly summarize the data, i.e. what you found. Use that format which most concisely and clearly presents your results. Abstracts must be complete and include data in the results. Abstracts that do not include results ("results will be presented") will be automatically rejected.
- **Conclusions:** Briefly state the implications of your findings, i.e. what the results mean.

Awards : The winners of Oral & Poster presentations will get a travel fellowship each to one HIPEC Centre of Excellence in Europe.
